EXPLANATION OF GROUP SYMBOLS

GROUPS OF TYPES 11, 12, 13, and 14:

A-Wrappers
B-Leaf and smoking leaf
C-Cutters
X-Lugs and primings
S-Scrap
N-Nondescript

GROUPS OF TYPES 21, 22, 23, and 24:

A-Wrappers
B-Heavy leaf
C-Thin leaf
X-Lugs
S-Scrap
N-Nondescript

GROUPS OF TYPE 31:

A-Wrappers
B-Bright leaf, red leaf, and tips
C-Lugs and cutters
X-Trash and flyings
S-Scrap
N-Nondescript

GROUPS OF TYPE 32:

B-Heavy leaf or dull crop
C-Thin leaf or bright crop
X-Seconds and ground leaves
S-Scrap
N-Nondescript

GROUPS OF TYPES 35, 36, and 37:

A-Wrappers
B-Heavy leaf
C-Thin leaf
X-Lugs
S-Scrap
N-Nondescript

GROUPS OF TYPE 41:

B-Binders or tops
C-Fillers (farm wrappers)
X-Stemming grades
Y-Farm fillers or ground leaves
S-Scrap
N-Nondescript

GROUPS OF TYPES 42, 43, and 44:

C-Fillers (farm wrappers)
X-Stemming grades
Y-Farm fillers or ground leaves
S-Scrap
N-Nondescript

GROUPS OF TYPE 46:

C-Superior
X-Inferior
Y-Defectuosos
S-Scrap (Picadura)
N-Nondescript

GROUPS OF TYPES 51, 52, and 53:

A-Wrappers
B-Binders, seconds, and brokes
C-Fillers and short darks
X-Stemming grades
Y-Sand-leaf fillers or ground leaves
S-Scrap
N-Nondescript

GROUPS OF TYPES 54 and 55:

B-Binders
C-Fillers
X-Stemming grades
Y-Sand-leaf fillers or bottom leaves
S-Scrap
N-Nondescript

GROUPS OF TYPE 56:

B-Binders
C-Fillers
X-Stemming grades
Y-Ground leaves
S-Scrap
N-Nondescript

GROUPS OF TYPES 61 and 62:

A-Wrappers
B-Stout wrappers and binders
C-Fillers or tips
X-Filler brokes
S-Scrap
N-Nondescript

GROUPS OF TYPES 81, 82, and 83:

A-Wrappers
C-Fillers
S-Scrap

STOCKS OF LEAF TOBACCO OWNED BY DEALERS AND MANUFACTURERS

Total Leaf Tobacco Holdings on April 1, 1947, Greater Than Year Ago
Most of 1946 Production in Stocks

Stocks of all types ^{1/}of leaf tobacco, converted to the farm-sales-weight equivalent, amounted to 3,552 million pounds on April 1, 1947 ^{2/}. This is a 6 percent increase compared with April 1 holdings a year ago when dealers and manufacturers in the United States and Puerto Rico owned 3,342 million pounds of leaf tobacco.

Indications are that only around 75 million pounds of the record 1946 production, now estimated to be 2,312 million pounds, remained to be marketed as of April 1. Sales had been concluded by April 1 for most types. Exceptions were Maryland where the auction markets did not open until the second quarter, and some of the fire-cured and cigar-leaf types where marketing of the 1946 crop was not completed by April 1. Approximately 695 million pounds entered stocks during the first quarter of this year.

For the southern types, stocks of flue-cured, Burley, fire-cured, and dark air-cured were all larger than on April 1, 1946. However, the amount of Maryland leaf in the hands of dealers and manufacturers decreased sharply. Holdings of the cigar filler except Puerto Rican, and shade wrapper types were slightly lower than a year ago. In the cigar binder class, stocks of the Connecticut Valley types and Northern Wisconsin showed a small increase. Stocks on April 1, 1947 of Cuban (Havana), and foreign-grown cigarette and smoking tobacco (Turkish and other) were up sharply compared with April 1, 1946.

^{1/} Figures quoted for type totals in this summary are the farm-sales-weight equivalent of reported stocks except foreign-grown leaf which is converted to an unstemmed equivalent basis only. Figures quoted in comments of reports prior to July 1, 1946, were on a reported weight basis. Tables in the body of the report show stocks on a farm-sales-weight basis; stocks in detail on a reported weight basis, subdivided according to recognized groupings; and stocks owned by dealers and manufacturers, separately.

^{2/} The general instructions for filing the tobacco stocks reports, required of dealers and manufacturers by the United States Department of Agriculture, specify that the report shall be made as of the opening of business on the first day of each quarter.

CIGARETTE-LEAF STOCKS

Flue-cured, Burley, and Turkish Stocks Larger
Maryland Down Sharply from Last April 1.

Stocks of flue-cured tobacco on April 1, 1947, amounted to 1,541 million pounds -- an increase of only 54 million pounds over April 1, 1946. Marketing of the record size 1946 crop of 1,352 million pounds was completed in February. Despite this large production, the high level of domestic consumption and large exports of flue-cured limited the increase in stocks over a year ago.

Burley holdings continued to show an upward trend and reached a new high level of 1,206 million pounds on April 1, 1947. This figure is 106 million pounds above April 1, 1946. The 1946 Burley crop amounted to 614 million pounds.

Maryland stocks of 25.7 million pounds were 13.4 million lower than on April 1, 1946, and were at the lowest level for this quarter since 1932. The 1945 crop was much smaller than consumption plus exports. Sales of the 1946 crop were not begun until after April 1, and the bulk of this type is sold during the second and third quarters.

Foreign-grown cigarette and smoking tobacco (Turkish and other), Type 90, reported in stocks on April 1, 1947, totaled 112.7 million pounds compared with 85.5 million a year ago.

DARK TOBACCO STOCKS

Stocks of all Fire-cured and Dark Air-cured Types
Above April 1 a Year Ago

Fire-cured tobacco stocks were 162 million pounds on April 1, 1947, compared with 142 million last April 1 -- an increase of around 15 percent. Auction sales of fire-cured leaf prior to April 1 amounted to around 90 million pounds. The 1946 crop of 109 million pounds was the largest in recent years. Stocks of fire-cured by types were: Virginia, 28.1 million pounds, Eastern District, 96.1 million; Western District, 38 million; and Henderson Stemming, 0.2 million.

Dark air-cured stocks were up 12 percent from a year ago. Holdings were 90.9 million on April 1 this year compared with 81 million a year ago. Larger stocks of One Sucker, Type 35, accounted for most of this increase. The 1946 crop of dark air-cured tobacco amounted to 48.4 million pounds. April 1, 1947, stocks of One Sucker were 52.2 million pounds; Green River, 33.7 million, and Virginia sun-cured, 5 million pounds.

CIGAR LEAF STOCKS

Domestic Cigar Filler Except Puerto Rican, and Shade Wrapper Stocks Down Slightly
Some Binder Types Show Small Increase Over Last April 1

Stocks of cigar-leaf on April 1, 1947 were 372 million pounds (farm-sales-weight) of domestic types including Puerto Rican, and 37.5 million pounds (unstemmed equivalent) of foreign-grown cigar leaf. This does not include Sumatra and Java leaf held in the Free Trade Zone.

Stocks of the filler types were 221 million pounds compared with 222 million last April 1. Pennsylvania Seedleaf stocks, however, were down 3.4 million from 12 months ago and holdings of the Ohio filler types dropped 6.8 million pounds. On the other hand, Puerto Rican stocks increased 9 million pounds over the April 1, 1946 figure. Stocks of Pennsylvania Seedleaf were 118 million pounds; Ohio filler, 27.1 million; and Puerto Rican, 76.1 million, of which 26.9 million were held on the Island.

Cigar-binder stocks were 134 million pounds on April 1, 1947, compared with 136.5 million a year ago. However, all of the decrease was in Type 54, Southern Wisconsin, where it was estimated that 50% of the 1946 crop had not been sold or delivered as of April 1. The bulk of type 54 deliveries were made before April 1 last year. Stocks of Connecticut Valley types and Northern Wisconsin were up slightly. Estimated 1946 production of cigar-binder types is 70.9 million pounds compared with 62.1 in 1945. Binder type stocks on April 1, 1947 were divided as follows: 32 million pounds of Connecticut Broadleaf; 23.1 million of Connecticut Havana Seed; 3.1 million of New York and Pennsylvania Havana Seed; 35 million of Southern Wisconsin; 40.4 million of Northern Wisconsin; and 0.4 million of Georgia and Florida binder.

Shade-grown cigar wrapper leaf stocks were 16.4 million pounds this April 1 -- a decrease of 1.5 million pounds from the April 1, 1946 level. Connecticut shade stocks were 12.2 million pounds, and Georgia and Florida shade, 4.2 million.

Stocks of Cuban (Havana) leaf were 35.9 million pounds on April 1, 1947 -- higher by about 10 million pounds than on the same date in 1946. Holdings of Sumatra and Java totaled 1.0 million pounds; Philippine Islands (Manila) 0.4 million; and other foreign-grown cigar leaf, 0.1 million.

Table 1.-Average percentage of weight remaining after handling, sweating, drying and stemming for all types of tobacco and factors used for adjusting stocks reported by dealers and manufacturers to a farm-sales weight equivalent 1/

SOUTHERN TYPES (11-37)

Type	No.	Yield realized from farm-sales weight to:				Stemming				Factors used to multiply by

1/ Information in this table taken from U. S. Department of Agriculture Circular 435, Tobacco Shrinkages and Losses in Weight in Handling and Storage, issued in July 1937. 2/ Factors for converting unstemmed stocks to farm-sales weight are adjusted on the basis of an average loss on the reported weight and should not be taken as indicative of full shrinkage after handling, sweating and storage. 3/ Ohio-Miami Valley filler types of tobacco packed in cases by growers before delivery. 4/ Tentative factor. 5/ Factor has not been determined.

Table 2.-Stocks of leaf tobacco owned by dealers and manufacturers, by types, converted to a farm-sales-weight equivalent, April 1, 1947, compared with other quarters 1/

-------	-----------	---------	-----------	------------	----------	------------

1/ Subject to revision.

2/ See Supplementary Burley report on page 14.

3/ Most of the stocks in the X and Y groups will go into scrap chewing manufacture as well as part of that included in the scrap group.

4/ Includes Puerto Rican on the Island, Type 46.

5/ Type 84.-Other foreign-grown all shown in the C group.

6/ Although Type 73 is defined as all domestic types of tobacco not otherwise classified, the bulk of the stocks reported in this type consists of cuttings, clippings, and trimmings. This is the result, in most instances, of the inability of reporters to designate cuttings, clippings, and trimmings in the "S" group of the types to which they properly belong.

7/ Does not include several million pounds of Sumatra and Java leaf stored in the Free Trade Zone.

* Revisions in January 1 report.

1/ These statistics represent the quantity of leaf tobacco reported as owned by all leaf tobacco dealers, manufacturers, quasi-manufacturers, growers' cooperative associations, warehousemen, brokers, holders, and owners subject to provisions of the Tobacco Stocks and Standards Act approved January 14, 1929, and the amendments thereto passed in the 72nd and 74th Congress. The quantities owned by dealers and manufacturers have been tabulated separately on a type total basis. Figures are as reported to date; no revisions of this table will be made.

2/ The quantities shown as owned by manufacturers include tobacco which is held under dealer registries of manufacturers and also tobacco held by dealers and known to be purchased on order for foreign or domestic manufacturers. The quantities shown as owned by dealers may include some tobacco held by dealers which is earmarked for sale to domestic manufacturers or for export. The table should therefore be considered as representing only the approximate quantities owned respectively by dealers and manufacturers.

3/ Includes stocks on the Island of Puerto Rico.

4/ For explanation of stocks included in this classification see footnote 6 on page 13.

5/ Does not include several million pounds of Sumatra and Java leaf stored in the Free Trade Zone.

1/ These statistics represent the quantity of leaf tobacco reported as owned by all leaf tobacco dealers, manufacturers, quasi-manufacturers, growers' cooperative associations, warehousemen, brokers, holders, and owners except (a) the original growers of tobacco; (b) manufacturers who in the first three quarters of 1946, according to the returns of the Commissioner of Internal Revenue, manufactured less than 35,000 pounds of tobacco, less than 185,000 cigars, or less than 750,000 cigarettes, pursuant to the provisions of the Tobacco Stocks and Standards Act approved January 14, 1929, and the amendment thereto passed in the 72nd and 74th Congress.

2/ Subject to revision.

3/ For explanation of stocks included in this classification see footnote 6 on page 13.

4/ Does not include several million pounds of Sumatra and Java leaf stored in the Free Trade Zone.

* Revisions in January 1 report.
